

Open link

<https://app.rpscampus.in>

in iOS safari browser

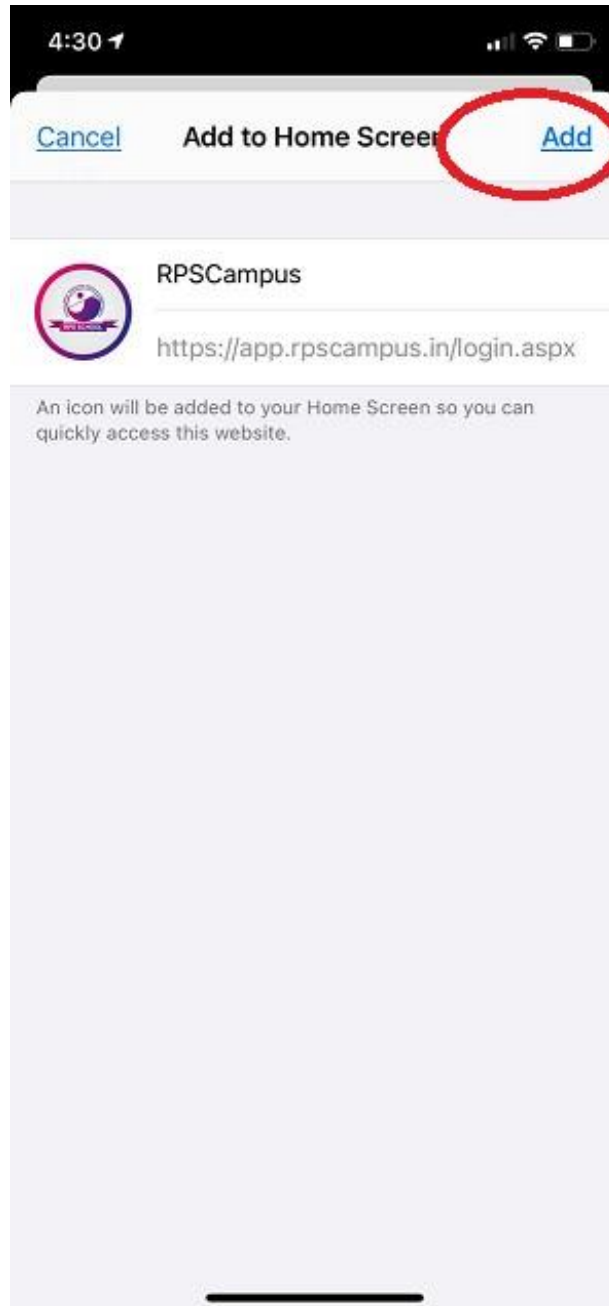

Please click on install button which is at right top of the screen.

Click on add to home Screen

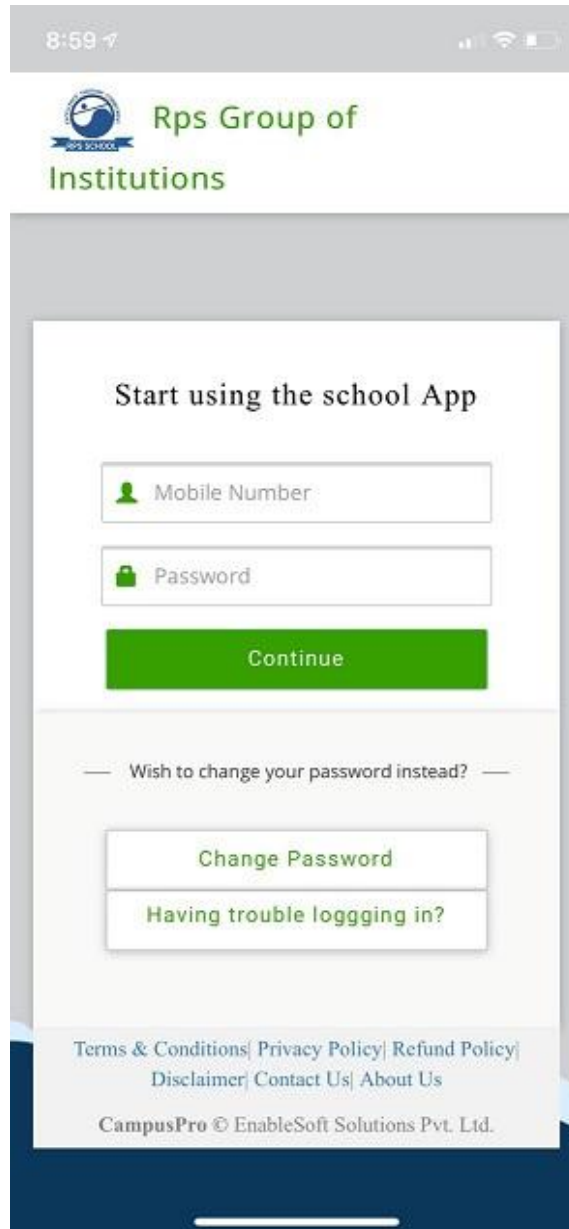

Click on add to home screen

Click on add to create app shortcut

Application installed. Click the RPSCampus icon to open the application.

Please use register mobile no with school is as user id
If you are first time user, use last 5 digits of mobile no as password
For example 9812345678 is your mobile no then 45678 is your first
time password.
After you enter these details you receive a OTP message for change
password

Please change password for security reasons.

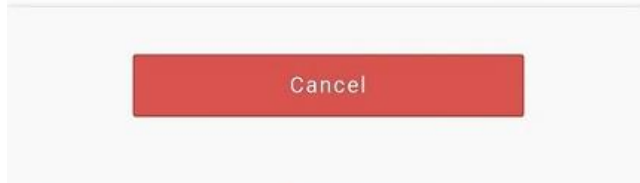

We have sent an OTP to your registered mobile No.

 Enter OTP

 New Password

 Confirm Password

Change

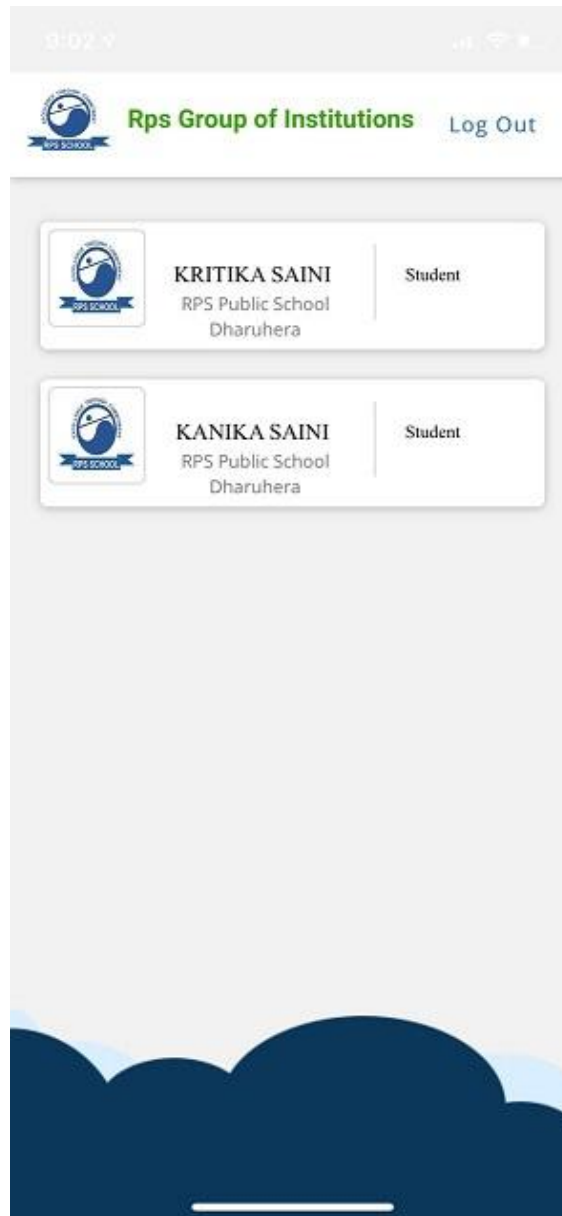

Cancel

Use OPT which is sent to your register mobile no. If you are using different mobile no which is not register with school no OTP will not be send by the system.

Please not new password should not be the same as default password (i.e. last five digit of your mobile no)

After reset password use register mobile no as ID as new password as **PASSWORD**

Use your school App
